Inspiration

The Selection presents a small range of classic designed furniture for many different needs and uses.

You can purchase these examples from your System 180 retailer as shown. Or they can be adjusted to your personal wishes in size, surface and design, due to their modular build.

Be inspired and follow your wishes and ideas.

SYSTEM 180

Shelves

There is no right or wrong answer to the question of how high, wide or deep a shelf should be. This is why you can set up your System 180 shelf with just the dimensions and equipment that fit your personal needs and rooms. With a delicate tube structure or practical side panels, open or with doors or drawers, for large memorabilia or the beloved little things.

Sustainably distinctive

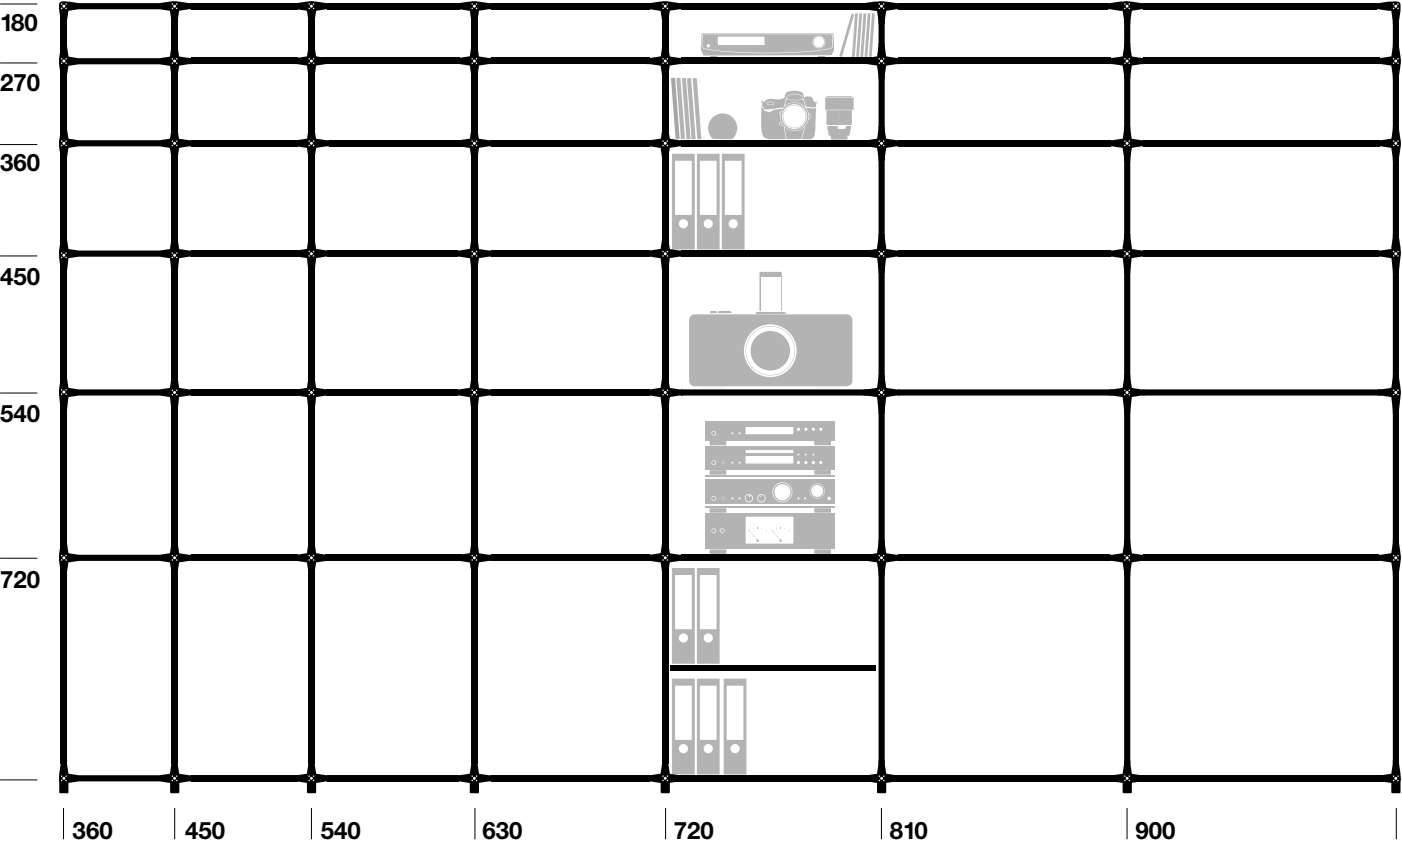

System 180 represents a reduced, classic design and durable quality. Our high demand on form and function is shown in every detail of our system. Clear lines, smart accessories and meticulous manufacture form the basis of our products. The characteristic tubular joins with the stamped disc node is a symbol for individuality, flexibility and constructive freedom.

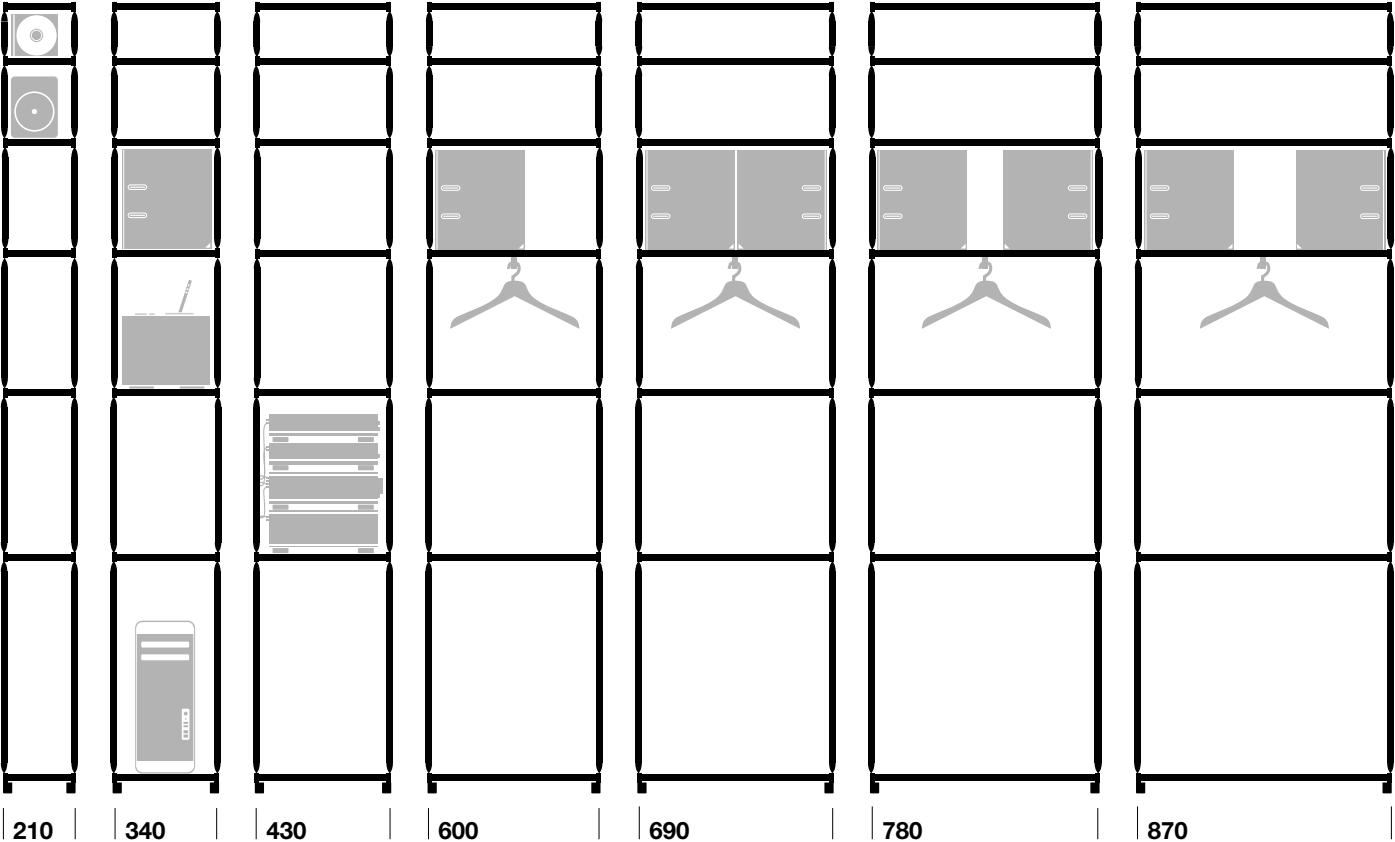

The system grid

Our furniture can be constructed in all dimensions as required. With 7 scaled widths and 6 practical heights your ideas and wishes are almost unlimited. Depending on use there are 7 practical depths available for your planning. Different depths within on piece of furniture cannot be combined.

System widths & heights

System depths

The Surfaces

To design the surface of your furniture choose from five standard and six coloured designs or two wooden veneers. All visible surfaces of bodies, doors, drawers and shelves are manufactured of colour-through MDF boards. The edge of the surface is thermally smoothed in an innovative process and sealed with wood oil.
